DETAILED ACTION

EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Lenny R. Jiang on November 29, 2004.

The application has been amended as follows:

In claim 2, line 9; change "so to as to" to —so as to—.

In claim 4, line 7; change "the to phase error" to —the phase error—.

In claim 6, line 1; change "claim 1" to —claim 2—.

In claim 7, line 1; change "claim 3" to —claim 4—.

Reason for Allowance

The following is an examiner's statement of reasons for allowance:

Claim 9 is allowed for reasons described in Office Action mailed July 26, 2004.

Claims 1-8 are considered allowable because the present invention comprises a digital receiver having an equalizing unit which operates in a self-recovering equalization algorithm during an initial stage and a decision directed equalization algorithm after a predetermined time has lapsed. The equalizing unit further includes a coefficient updating unit which receives a

phase lock signal from a carrier recovering and phase lock detecting unit and a restored signal from a re-rotator unit for generating an error for updating coefficients of the equalizing unit. The closes prior art, Murakami (cited in Office Action mailed July 26, 2004) shows a similar circuit including an adaptive equalizing unit. However, Murakami fails to teach a coefficient updating unit which receives a phase lock signal from a carrier recovering and phase lock detecting unit and a restored signal from a re-rotator unit for generating an error for updating coefficients of the equalizing unit. This distinct feature has been included in independent claim 1 rendering it allowable.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Guillermo Munoz whose telephone number is 571-272-3045. The examiner can normally be reached on Monday-Friday 8:30a.m-4:30p.m..
